VOLUME CONTENTS

CONTENTS VOL. 76 NO. 1 1995

O. G. Manylov. Regeneration in Gastrotricha—I. Light microscopical observations on the regeneration in *Turbanella* sp. 1

B. I. Joffe and M. Wikgren. Immunocytochemical distribution of 5-HT (serotonin) in the nervous system of the gastrotrich *Turbanella cornuta* 7

E. V. Raikova. Occurence and ultrastructure of collar cells in the stomach gastrodermis of *Polypodium hydriforme* Ussov (Cnidaria) 11

P. F. Woodall and C. FitzGibbon. Ultrastructure of spermatozoa of the yellow-rumped elephant shrew *Rhynchocyon chrysopygus* (Mammalia: Macroscelidea) and the phylogeny of elephant shrews 19

T. Heinzeller and H. Fechter. Microscopical anatomy of the cyrtocrinid *Cyathidium meteorensis* (sive *foresti*) (Echinodermata, Crinoidea) 25

J. B. Williams. Further ultrastructural studies on the encapsulated larva of *Kronborgia isopodicola* (Platyhelminthes, Fecampiidae), with particular reference to nuclei 35

D. M. Woolley. The structure of the spermatozoon of the Japanese Quail, *Coturnix coturnix* L., var. japonica 45

J. Wuchiyama and H. Michibata. Classification, based on autonomous fluorescence, of the blood cells of several ascidians that contain high levels of vanadium 51

G. W. Rouse. Is sperm ultrastructure useful in polychaete systematics? An example using 20 species of the fabriciinae (Polychaeta: sabellidae) 57

M. Duvert and C. Salat. Ultrastructural studies of the visceral muscles of chaetognaths 75

CONTENTS VOL. 76 NO. 2 1995

R. A. Cloney. Origin and differentiation of the inner follicular cells during oogenesis in *Molgula pacifica* (Urochordata) an ascidian without test cells 89

M. D. Stokes and N. D. Holland. Embryos and larvae of a lancelet, *Branchiostoma floridae*, from hatching through metamorphosis: growth in the laboratory and external morphology 105

A. Hay-Schmidt. The larval nervous system of *Polygordius lacteus* Scheinder, 1868 (Polygordiidae, Polychaeta): immunocytochemical data 121

G. Haszprunar, L. v. Salvini-Plawen and R. M. Rieger. Larval planktotrophy—a primitive trait in the bilateria? 141

A. Cerra and M. Byrne. Cellular events of wrinkled blastula formation and the influence of the fertilization envelope on wrinkling in the seastar *Patiriella exigua* 155

M. Jakubowski, L. Halama and K. Żuwała. Gill respiratory area in the pelagic sculpins of Lake Baikal, *Cottocomephorus inermis* and *C. grewingki* (Cottidae) 167

L. Rebecchi and A. Guidi. Spermatozoon ultrastructure in two species of *Amphibolus* (Eutardigrada, Eohypsibiidae) 171

CONTENTS VOL. 76 NO. 3 1995

L. R. Page. Similarities in form and developmental sequence for three larval shell muscles in nudibranch gastropods 177

H. C. Bjerring. The parietal problem: how to cut this Gordian knot? 193

P. D. Taylor, M. J. Weedon and C. G. Jones. Skeletal ultrastructure in some cyclostome bryozoans of the family Lichenoporidae 205

CONTENTS VOL. 76 NO. 3 1995 (Continued)

M. Rosenberg and M. R. Warburg. Changes in structure and function of ventral epidermis in *Hyla arborea savignyi* Aud. (Anura; Hylidae) throughout metamorphosis **217**

L. Orrhage. On the innervation and homologues of the anterior end appendages of the Eunicea (Polychaeta), with a tentative outline of the fundamental constitution of the cephalic nervous system of the polychaetes **229**

C. A. Smith and J. M. P. Joss. Immunohistochemical localization of laminin and cytokeratin in embryonic alligator gonads **249**

CONTENTS VOL. 76 NO. 4 1995

P. L. Edds-Walton and A. N. Popper. Hair cell orientation patterns on the saccules of juvenile and adult toadfish, *Opsanus tau* **257**

K. W. Wolf and J. Hellwage. Spermatogenesis in *Tenebrio molitor* (Tenebrionidae, Coleoptera): a fine structure and anti-tubulin immunofluorescence study **267**

O. Giere, C. Nieser, R. Windoffer and C. Erséus. A comparative structural study on bacterial symbioses of Caribbean gutless Tubificidae (Annelida, Oligochaeta) **281**

B. A. Huber. Copulatory mechanism in *Holocnemus pluchei* and *Pholcus opilionoides*, with notes on male cheliceral apophyses and stridulatory organs in Pholcidae (Araneae) **291**

R. Muñoz-Chápuli and A. V. De Andrés. Anatomy and histology of the cephalic arterial coilings in hammerhead sharks (genus *Sphyrna*) **301**

I. Eeckhaut, B. Dochy and M. Jangoux. Functional morphology of the introvert and digestive system of *Myzostoma cirriferum* (Myzostomida) **307**

Volume Contents and Author Index Vol. 76, 1995 **i**
